1 <b>Synthesis and electronic properties of tris(4-formylbiphenyl-4-yl) amine as a building block for covalent organic frameworks and for optoelectronic devices</b>	9
Mara A. Fernández, Fabio Zuluaga and Manuel N. Chaur	
2 <b>Review of recent developments and shortcomings in the characterization of potential atmospheric ice nuclei: focus on the tropics</b>	15
Jacqueline D. Yakobi-Hancock, Luis Antonio Ladino and Jonathan P. D. Abbatt	
3 <b>Total phenolics antioxidant activity and phytochemical profile of some plants from the Yotoco National Protected Forest. Valle del Cauca, Colombia</b>	35
Harlen Torres Castañeda, Ana Julia Colmenares Dulcey and José Hipólito Isaza Martínez	
4 <b>Extraction, chemical composition and antimicrobial activity of the essential oils of pipilongo the essential oils of pipilongo (<i>piper tuberculatum</i>) using supercritical carbon dioxide</b>	45
Jaime Restrepo Osorio, Ana Julia Colmenares Dulcey, Luis E. Mora and Rubén Sánchez Andica	
5 <b><i>N,N</i>-dimethyl amine linked to triphenylamine (TPA): a promising co-donor moiety in organic dyes and their push-pull behavior</b>	57
Alejandro Ortiz G., Wilmmmer Alexander Arcos R. and Braulio Insuasty O.	
6 <b>Effects of the vibrant motion of XHY<sup>-</sup> on the post-photo detachment dissociation dynamics of the XHY complex (X, Y = Br, I)</b>	67
Vivianne K. Ocampo-Restrepo, Julio C. Arce and José G. López	
7 <b>Preparation and characterization of cassiterite (SnO<sub>2</sub>) and its application in the hydrogenation of methyl esters</b>	81
A. Castro Grijalba, Julián Urresta, A. Ramírez and Joël Barrault	
8 <b>Development of a passive mini-direct ethanol fuel cell: effect of me a assembly parameters by hot pressure</b>	95
Diego F. Triviño-Bolaños, Gustavo A. López-Martínez, Rubén J. Camargo-Amado and William H. Lizcano-Valbuena
